- Do not expose this product to extremes of heat or cold, or to moisture - ie. dripping or splashing

## BL-500 Bluetooth PC Card Installation

This section will give you all the information that is needed to install your Brain Boxes Bluetooth PC Card Hardware into your computer running the Windows 98 Operating System.

Insert the Bluetooth Product CD into your CDROM drive.

Insert the Bluetooth PC Card into a free PC Card slot

Windows 2000 will detect your card and start the **Found New Hardware Wizard**.

Click "Next"

Select "Search for the best driver for your device" and click "Next"

Ensure your product CD is inserted and select "CD-ROM Drive".

If you have downloaded the drivers from the website, please select "Specify a location" and then browse to the location into which you copied the software.

Windows will locate the appropriate drivers. Click "Next"

Windows will install all appropriate software. Click "Finish".

A My Bluetooth devices icon will now appear in the My Computer folder on your desktop. Double clicking on this icon will open the My Bluetooth Devices user interface which will enable you to configure your card and establish connections with other bluetooth enabled devices.

The Brain Boxes Bluetooth icon found in the icon tray on your start bar can also be used to access this user interface.

Full details of the My Bluetooth Devices user interface can be found in the configuration chapter.
